MAINTENANCE PRACTICES AVAILABLE AS HANDBOOKS

INDEX AND ORDERING INFORMATION

1. GENERAL

1.01 There are a limited number of maintenance practices that are available both as standard-sized Bell System Practices (BSP) and as maintenance handbooks. Each of these handbooks contains only the duplicated contents of its companion BSP. Each is identified by a 6-digit select code and is usually pocket-sized (3-1/2 by 7 inches). This section provides an index of these handbooks. The 6-digit select code and title of each handbook, the 9-digit number of the companion BSP, and the issue number of the BSP are included in the index.

1.02 The reasons for reissuing this section are listed below. Since this reissue is a general revision, no revision arrows have been used.

- Changes tbe issue number of the companion BSP covering the No. 2 ESS
- Adds index information covering tbe No. 4 ESS (4E2 Generic and 4E3 Generic) bandbooks and companion BSPs
- Changes ordering procedures
- Changes Form SD-1-80.80 to IND 1-80.80FA.

1.03 Recommendations for changes to this section should be submitted as specified in Section 000-010-015, How to Comment on Bell System Practices.

2. ORDERING

2.01 These handbooks are available from the Indiana Publication Center (IPC). They are stocked separately from the standard-sized, companion BSPs and must be ordered separately.

2.02 These handbooks are ordered on a 1-time basis. The 6-digit select code and the title of each handbook are entered on the order. If the 9-digit BSP number appears on the order, the companion BSP will be supplied rather than the handbook. Multiple select codes may be entered on tbe same order.

2.03 The operating telephone companies (OTC) that do not use centralized ordering should use Form IND 1-80.80FA and should process the form through proper channels in accordance with local instructions.

2.04 The OTCs that use centralized ordering should place orders through the company BSP Coordinators.

2.0S The mailing address of the Indiana Publication Center is:

Western Electric Company, Incorporated
Indiana Publication Center
P.O. Box 26205
Indianapolis, Indiana 46226

2.06 If a given standard-sized, companion BSP is revised and reissued and if it is determined that the revised BSP content shall be released as a handbook, then tbe revised version will be assigned a new 6-digit select code and a new order must be processed for the new handbook.

3. INDEX

3.01 Those maintenance handbooks that have a standard-sized, companion BSP are listed in this index.

3.02 A bullet (•) indicates an item that bas been added or changed since the previous issue of this index.

3.03 A square (□) indicates a canceled item. Information relating to the cancellation, if necessary, will be shown in a footnote following the item. Canceled items and related footnotes will be deleted upon reissue of the index.
